Claim construction is a major phase of a patent litigation where the meaning and scope of the claims themselves - *the invention* - is determined by the court. The outcome of this definition phase is crucial to the respective infringement and invalidity positions of the parties. The *Thesaurus of Claim Construction* directs practitioners to the cases in which claim terms have previously been construed, and further to the sources of the evidence used by past courts to construe the terms in dispute.

This two-volume Second Edition is updated to include over 3,500 additional entries, some of which focus on *Biotechnology*, *Pharmacology*, and *Cleantech*. *Ordinary Skill* is now included as a topic.
