The Fissure connecting the alternate New York to its counterpart has vanished, plunging the city into a deep freeze. The people are demanding a return to Prohibition and rationing as energy supplies dwindle.

Meanwhile, in the real 1954 New York, the political dynamic has changed. Nimrod finds his department subsumed by a radical new group, Atoms For Peace, led by the mysterious Evelyn McHale. Their goal is simple: total conquest - or destruction - of the Empire State.

Adam Christopher returns with the thermonuclear sequel to *Empire State* - the superhero-noir fantasy thriller set in the other New York.
