The Pentagon's Brain: An Uncensored History of DARPA, America's Top-Secret Military Research Agency Annie Jacobsen

NATIONAL BESTSELLER A Pulitzer Prize Finalist and the definitive history of DARPA, the Defense Advanced Research Project Agency, from the author of the *New York Times* bestseller *Area 51*

No one has ever written the history of the Defense Department's most secret, most powerful, and most controversial military science R&D agency. In the first-ever history about the organization, *New York Times* bestselling author Annie Jacobsen draws on inside sources, exclusive interviews, private documents, and declassified memos to paint a picture of DARPA, or "the Pentagon's brain," from its Cold War inception in 1958 to the present.

This is *the* book on DARPA--a compelling narrative about this clandestine intersection of science and the American military and the often frightening results.
