The Initiate: Adventures in Sacred Chromatography Sue Vincent, Stuart France

Imagine wandering through an ancient landscape wrought in earth and stone, exploring the sacred sites of peoples long ago and far away in time and history. The mounds and barrows whisper legends of heroes and magic, and painted walls sing of saints and miracles. Now imagine that the lens of the camera captures a magical light in soft blues and misty greens and gold. A light that seems to have no cause in physical reality. What would you do? If you were open to the possibility of deeper realities, perhaps you would wish to explore this strange phenomenon...something two people came to know as sacred chromatography. The Initiate is the story of just such a journey beyond the realms of our accustomed normality. It is a factual tale told in a fictional manner. In just such a way did the Bards of old hide in the legends and deeds of heroes those deeper truths for those who had eyes to see and ears to hear. As the veils thin and waver, time shifts and the present is peopled with the shadowy figures of the past, weaving their tales through a quest for understanding and opening wide the doors of perception for those who seek to see beyond the surface of reality.
