From Darkroom To Daylight

From Darkroom To Daylight

Harvey Wang explores the shift from film to digital through a collection of portraits and interviews with more than forty prominent photographers. *From Darkroom to Daylight* is "at once an homage to the analog world of film photography, a capsule history of the medium's digital revolution, and an engaging conversation with noted photographers about the transition."—*American Photo*

Harvey Wang's photography career has spanned more than 30 years, and his film career more than 15. He has published five books of photography, all critically acclaimed portraits of Americans from many walks of life. His work has been exhibited in museums and galleries across the country, including the Museum of the City of New York, the Smithsonian in Washington, D.C., and the New-York Historical Society. His award-winning films, ranging in style and approach from documentary to experimental, have been seen in festivals all over the world.
