Decision-Analytic Intelligent Systems: Automated Explanation and Knowledge Acquisition

David A. Klein

Decision-Analytic Intelligent Systems: Automated Explanation and Knowledge Acquisition David A. Klein

This book presents a framework for building intelligent systems based on the mathematical decision models of Decision Analysis. The author provides new techniques for automated explanation and knowledge acquisition in formally sound systems that reason about complex tradeoffs in decisions. Also included are specifications for implementing these techniques in computer programs, along with demonstration applications in marketing, process control, and medicine.

Readers with an interest in artificial intelligence will gain a foundation for building formally justifiable, intelligible, modifiable systems for computing decisions involving multiple considerations, with applications across a variety of domains. Beyond decision models, the methodology of the work reported suggests a more general approach to employing formal mathematical models in transparent intelligent systems.

Decision-analysis experts will find a collection of methods for explaining decision-analytic advice to clients in intuitive terms, for simplifying parameter assessment, and for managing changing preferences over time. The book provides sufficient background material to promote understanding by readers who may be unfamiliar with artificial intelligence, with decision analysis, or with both fields, and such material is labeled to increase the well-versed reader's efficiency in skipping particular sections.

From reader reviews:

Jose Bell:

The book Decision-Analytic Intelligent Systems: Automated Explanation and Knowledge Acquisition make you feel enjoy for your spare time. You should use to make your capable much more increase. Book can to get your best friend when you getting tension or having big problem using your subject. If you can make reading through a book Decision-Analytic Intelligent Systems: Automated Explanation and Knowledge Acquisition being your habit, you can get more advantages, like add your own capable, increase your knowledge about some or all subjects. You could know everything if you like available and read a publication Decision-Analytic Intelligent Systems: Automated Explanation and Knowledge Acquisition. Kinds of book are a lot of. It means that, science publication or encyclopedia or other individuals. So , how do you think about this book?

Owen Bourne:

What do you concerning book? It is not important together with you? Or just adding material when you really need something to explain what the one you have problem? How about your spare time? Or are you busy man? If you don't have spare time to complete others business, it is make you feel bored faster. And you have free time? What did you do? All people has many questions above. They need to answer that question due to the fact just their can do that. It said that about guide. Book is familiar in each person. Yes, it is proper. Because start from on guardería until university need this particular Decision-Analytic Intelligent Systems: Automated Explanation and Knowledge Acquisition to read.

Ralph Overman:

Now a day people who Living in the era wherever everything reachable by connect with the internet and the resources inside can be true or not require people to be aware of each data they get. How a lot more to be smart in getting any information nowadays? Of course the answer then is reading a book. Looking at a book can help people out of this uncertainty Information specifically this Decision-Analytic Intelligent Systems: Automated Explanation and Knowledge Acquisition book because book offers you rich information and knowledge. Of course the info in this book hundred per-cent guarantees there is no doubt in it everbody knows.

Regina Nichols:

Information is provisions for folks to get better life, information these days can get by anyone from everywhere. The information can be a knowledge or any news even an issue. What people must be consider whenever those information which is from the former life are challenging to be find than now's taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you receive the unstable resource then you have it as your main information you will see huge disadvantage for you. All of those possibilities will not happen inside you if you take Decision-Analytic Intelligent Systems:

Automated Explanation and Knowledge Acquisition as the daily resource information.
