Discovering Cadborosaurus Paul H. Leblond, John Kirk, Jason Walton

'Discovering Cadborosaurus' will lay out for the reader the evidence of the possible existence of this serpent-like creature. There have been many eye-witness accounts of an unusual but distinctive large marine animal along the coastal waters of the Northeast Pacific Ocean that simply can not be identified as one the commonly 'known' marine animals. The contributors, John Kirk, Jason Walton and Dr. Paul Leblond, are thoroughly convinced of Caddy's existence and this book is the result of their efforts on this fascinating subject.
