The Chronic Argonauts H. G. Wells

"The Chronic Argonauts" is a short story written by H. G. Wells. First published by the Royal College of Science in 1888, it predates Wells's more famous time travelling novel, *The Time Machine*, by seven years. Although Wells is generally credited with the popularisation of the concept of time travel by using a vehicle that allows an operator to travel purposefully and selectively, "The Clock that Went Backward" by Edward Page Mitchell, was published in 1881 and involves a clock that allows a person to travel backwards in time.
