John McGill wasn't looking for love when he became Commander (for life) of the secretive Applied Science Concepts and he certainly didn't expect it to come in the form of a hybrid cat woman who drove both his heads crazy. The only problem? She wants nothing from him other than frequent booty calls.

Katya (formerly Amy) is dealing with her own problems, namely a split personality and the attentions of a man who wants to take things to a level of relationship that scares the hell out of her. Why someone as perfect as he is would be interested in her is beyond her and she'll be damned if he throws away his career over a freak-show.

It'll take the efforts of a flirty artificial intelligence, a lost child, and a radioactive zombie to try to set things right.
