2008 Federal Radionaviagion Plan U.S. Department of Defense

The Federal Radionavigation Plan (FRP) reflects the official radionavigation policy and planning for the Federal Government. The FRP covers both terrestrial and space-based, common-use, Federally operated radionavigation systems. These systems are sometimes used in combination with each other or with other systems. Systems used exclusively by the military are covered in the Chairman, Joint Chiefs of Staff (CJCS) Master Positioning, Navigation, and Timing Plan (MPNTP). The plan does not include systems that mainly perform surveillance and communication functions.
