Heart of Darkness: Character Studies Ashley Chantler

Joseph Conrad's *Heart of Darkness* (1899) is one of the most important literary works of the early twentieth century. It has provoked much critical debate, on issues such as *fin de siècle* doubt and pessimism, European colonialism, racism, and misogyny. Engaging with the novel's characters is crucial to understanding its complexity and its critical history.

This study includes: an overview of the novel, including an account of its late nineteenth-century context; discussions of the narrative structure and the narrators; - chapters analyzing in detail the key characters in relation to the text's themes, issues and historical context; engagement with a range of literary criticism and theory; a conclusion reminding students of the potential of detailed character analysis and close critical reading; a guide to secondary texts and a comprehensive bibliography.
