Economics of Women, Men, and Work (5th Edition) Francine D. Blau, Marianne A. Ferber, Anne E. Winkler

A current summary and synthesis of research and data on gender issues in the labor market, this book presents readers with a single volume that thoroughly explores gender issues in the workplace and in the family. Chapter topics include women and men: changing roles in a changing economy, the family as an economic unit, the allocation of time between the household and the labor market, differences in occupations and earnings, recent developments in the labor market, changing work roles and the family, and gender differences in other countries. For use by practicing economists and social scientists, and for men and women interested in learning about their place within-and effect upon-the labor market.
